The Map of Bones Francesca Haig,2016-12-06 Book Two in the critically acclaimed The Fire Sermon trilogy--The Hunger Games meets Cormac McCarthy's The Road in this richly imagined post-apocalyptic series by award-winning poet Francesca Haig. Four hundred years in the future, the Earth has turned primitive following a nuclear fire that has laid waste to civilization and nature. Though the radiation fallout has ended, for some unknowable reason every person is born with a twin. Of each pair, one is an Alpha--physically perfect in every way; and the other an Omega--burdened with deformity, small or large. With the Council ruling an apartheid-like society, Omegas are branded and ostracized while the Alphas have gathered the world's sparse resources for themselves. Though proclaiming their superiority, for all their effort, Alphas cannot escape one harsh fact: whenever one twin dies, so does the other. Cass is a rare Omega, one burdened with psychic foresight. While her twin, Zach, gains power on the Alpha Council, she dares to dream the most dangerous dream of all: equality. For daring to envision a world in which Alphas and Omegas live side-by-side as equals, both the Council and the Resistance have her in their sights--

But grave tidings reach the Imperial Regent's ears. Warnings from an ancient race and eerie silence from the army tasked with holding the crucial world until his arrival, lead Guilliman to send a vital mission to Gathalamor; at its head, Shield-Captain Achallor of the Adeptus Custodes. Achallor discovers a world on the brink, a beaten Imperial force and sinister agents of Abaddon the Despoiler who have unearthed an ancient evil, a weapon that when harnessed not only threatens the primarch, but perhaps the holy Throne of Terra itself..

Fire in the Bones James Raffan, 1997 When Bill Mason set off alone into the wilderness in his red canoe, many people went with him, if only in their imaginations. Now, James Raffan leads us into the heart of the vast landscape that was Bill Mason's own brilliant imagination, on a biographical journey that is entertaining, enriching and inspiring. Bill Mason was a filmmaker who gave us classics such as *Cry of the Wild* and *Paddle to the Sea*; he was author of the canoeist's bible, *Path of the Paddle*; he was the consummate outdoorsman. Microarchaeology Stephen Weiner,2010-02-15 The archaeological record is a combination of what is seen by eye, as well as the microscopic record revealed with the help of instrumentation. The information embedded in the microscopic record can significantly add to our understanding of past human behaviour, provided this information has not been altered by the passage of time. Microarchaeology seeks to understand the microscopic record in terms of the type of information embedded in this record, the materials in which this information resides, and the conditions under which a reliable signal can be extracted. This book highlights the concepts needed to extract information from the microscopic record. Intended for all archaeologists and archaeological scientists, it will be of particular interest to students who have some background in the natural sciences as well as archaeology.
