Julia Cameron

Missionary Positions Albert H. Tricomi, 2011 Weaving together political, theological, and literary analyses this investigation examines a broad range of works, featuring both those that celebrate and those that criticize American missionaries at home and abroad.

Writing to Learn Fred Sedgwick, 2002-01-04 Writing to Learn looks at how poetry can be used as an enjoyable way to teach literacy across the curriculum. It includes remarkable poems and stories by children as well as clear descriptions of how to teach creatively within the framework of the National Literacy Strategy. The book goes through the primary curriculum, subject by subject: *Poetry and Science and Maths *Poetry and Personal, Social and Moral Education *Poetry and Art and Music *Poetry and Religious Education *Poetry for its Own Sake. The author includes: *advice on different ways children can compose their writing and how computers can be a valuable aid to children's writing *examples of published poetry and how it can be used to stimulate good writing *advice on bringing writers into schools and publishing school anthologies. This book will prove invaluable to teachers and parents keen to teach writing whilst seeing children as active and critical learners. It shows that if we expect great things from children in writing, we get them.

Women's Writing and Mission in the Nineteenth Century Angharad Eyre, 2022-11-30 Until now, the missionary plot in Charlotte Brontë's *Jane Eyre* has been seen as marginal and anomalous. Despite women missionaries being ubiquitous in the nineteenth century, they appeared to be absent from nineteenth-century literature. As this book demonstrates, though, the female missionary character and narrative was, in fact, present in a range of writings from missionary newsletters and life writing, to canonical Victorian literature, New Woman fiction and women's college writing. Nineteenth-century women writers wove the tropes of the female missionary figure and plot into their domestic fiction, and the female missionary themes of religious self-sacrifice and heroism formed the subjectivity of these writers and their characters. Offering an alternative narrative for the development of women writers and early feminism, as well as a new reading of *Jane Eyre*, this book adds to the debate about whether religious women in the nineteenth century could actually be radical and feminist.

Missionary Writing and Empire, 1800-1860 Anna Johnston, 2003-08-07 Anna Johnston analyses missionary writing under the aegis of the British Empire. Johnston argues that missionaries occupied ambiguous positions in colonial cultures, caught between imperial and religious interests. She maps out this position through an examination of texts published by

missionaries of the largest, most influential nineteenth-century evangelical institution, the London Missionary Society. Texts from Indian, Polynesian, and Australian missions are examined to highlight their representation of nineteenth-century evangelical activity in relation to gender, colonialism, and race.

The Missionary Position Christopher Hitchens, 2012-04-24 Among his many books, perhaps none have sparked more outrage than *The Missionary Position*, Christopher Hitchens's meticulous and searing study of the life and deeds of Mother Teresa--and it is now available as a Signal deluxe paperback. A Nobel Peace Prize recipient canonized by the Catholic Church in 2003, Mother Teresa of Calcutta was celebrated by heads of state and adored by millions for her work on behalf of the poor. In his measured critique, Hitchens asks only that Mother Teresa's reputation be judged by her actions--not the other way around. With characteristic elan and rhetorical dexterity, Hitchens eviscerates the fawning cult of Teresa, recasting the Albanian missionary in a light she has never before been seen in.

The Right to Write Julia Cameron, 2017-12-05 'We should write because it is human nature to write' Julia Cameron In *The Right to Write*, Julia Cameron's most revolutionary book, the author asserts that conventional writing wisdom would have you believe in a false doctrine that stifles creativity. This isn't a book of rules and certainly not about how to write that query letter, how to find a market for your work, or how to find an agent. It's about using writing to bring clarity and passion to the act of living. The secrets in breaking loose from the grip of your established thought process, to unleash the wave of creativity striving to express itself within. Here are techniques and illustrative stories to help you make writing a natural, intensely personal part of life. And this book includes the details of Cameron's own writing processes when creating her best selling books, which include the phenomenal and world famous *The Artist's Way* and *Vein of Gold*. For those jumping into the writing life for the first time and for those already living it, the art of writing will never be the same after reading this book. Provocative, thoughtful and exciting, you'll return to it again and again as you seek to liberate and cultivate the writer residing within you.

The Book of Job and the Mission of God Tim J. Davy, 2020-10-29 The book of Job is famous for its complex and compelling exploration of suffering and faith. It is less well-known for its contribution to a biblical understanding of God's mission and the church's role within it. In this detailed study, Tim J. Davy provides the most in-depth treatment yet of a "missional" reading of Job, building on the great strides taken in recent years in the missional reading of Scripture. A number of missiologically framed questions are examined, including the function of the book's non-Israelite theme, the cultural encounter of Job with similar ancient Near Eastern literature, and questions of justice and the treatment of the poor.

Ultimately Davy makes the bold claim that the book of Job lies, not at the periphery, but at the heart of our understanding of the mission of God.

Writing History Stefan Berger, Heiko Feldner, Kevin Passmore, 2020-02-20 The third edition of Writing History provides students and teachers with a comprehensive overview of how the study of history is informed by a broader intellectual and analytical framework, exploring the emergence and development of history as a discipline and the major theoretical developments that have informed historical writing. Instead of focusing on theory, this book offers succinct explanations of key concepts that illuminate the study of history and practical writing, and demonstrates the ways they have informed practical work. This fully revised new edition comprehensively rewrites and updates original chapters but also includes new features such as: - new chapters on postcolonial, environmental and transnational history; - chapter introductions setting them within the context of historiography; - a new substantive introduction from the editors, providing a useful road-map for students; - an expanded glossary. In its new incarnation Writing History is, more than ever, an invaluable introduction to the central debates that have shaped history.

Writing Lovers Méira Cook, 2005-04-22 In writings by the French post-structuralists, rhetorical tropes such as speechlessness, fragmentation, and deflection testify to the writer's difficulty in broaching the subject of love. Similarly, Cook shows that love poetry proceeds out of a profound failure of language resulting from the opacity of discourse, its lack of neutrality, or the fugitive transparency of reference. Writing Lovers also explores race, ethnicity, age, and sexual identity within the context of the passionate excesses of amatory discourse.

Travel Writing in the Nineteenth Century Tim Youngs, 2006-09-01 Long popular with a general readership, travel writing has, in the past three decades or so, become firmly established as an object of serious and multi-disciplinary academic inquiry. Few of the scholarly and popular publications that have focused on the nineteenth century have regarded the century as a whole. This broad volume examines the cultural and social aspects of travel writing on Africa, Asia, America,

the Balkans and Australasia.
