**Mark Scandrette**

Fostering Imagination in Fighting Trafficking John T. Picarelli, 2010-11 Sweden and the U.S. have each taken leading roles in the global fight against trafficking in persons. The American approach emphasizes strengthening legal codes and law enforcement tools while enhancing services to victims, and has led to a victim-centered approach. The Swedish model criminalizes demand for trafficking and handling the ‘supply’ through more admin. means, and has led to an equality-centered approach. Both countries believe sex trafficking is an international issue that requires a mixture of law enforcement, social welfare and foreign policies to solve. This report compares the responses in the U.S. and Sweden to identify synergies and divergences that might impact practice in both countries. Illustrations.

**Global Report on Trafficking in Persons 2020** United Nations, 2021-04-30 The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.

Toolkit to Combat Trafficking in Persons United Nations Office on Drugs and Crime, 2008 In the light of the urgent need for cooperative and collaborative action against trafficking, this publication presents examples of promising practice from around the world relating to trafficking interventions. It is hoped that the guidance offered, the practices showcased and the resources recommended in this Toolkit will inspire and assist policymakers, law enforcers, judges, prosecutors, victim service providers and members of civil society in playing their role in the global effort against trafficking in persons. The present edition is an updated and expanded version of the Toolkit published in 2006.

**Global Report on Trafficking in Persons 2018** United Nations, 2019-03-21 This report, which comprises three booklets, provides a comprehensive analysis of the crime of trafficking in persons and how different countries are responding to this crisis. Countries worldwide have been detecting and reporting a larger number of victims and are also convicting more traffickers than ever before. This may well be the result of an increase in the capacity to identify victims over the last few years. While the number of reporting countries did not significantly increase, the number of victims reported in different

countries did increase. The trend has unfortunately been growing over the past few years.

Eradicating Human Trafficking: Culture, Law and Policy Gabriela Curras DeBellis,2021-12-13 With over 40 million people still enslaved around the world, this book takes a closer look at the role of culture in society and how certain practices, beliefs or behaviors may be fueling human trafficking beyond what the law can curtail. The study reveals cultural elements that conflict with existing anti-human trafficking laws across three case studies (United States, India and Costa Rica). There is no simple answer or a single solution to stop or significantly reduce the crime, but a pragmatic, multi-disciplinary, and human rights approach to the problem may bring to light that, efforts to curtail human trafficking will be in vain if we rely on law alone. A fundamental shift in culture is imperative.

The White Umbrella Mary Frances Bowley,2012-10-01 Stories of survivors of sex-trafficking. Sex trafficking. We hear about it on the nightly news and in special interest stories from around the world, but it occurs daily in communities all around us. Every year, thousands of young women are forced into sexual exploitation. Most are under the age of 18. The damage this causes to their emotions and souls is immeasurable. But they are not without hope. The White Umbrella tells stories of survivors as well as those who came alongside to help them to recovery. It describes the pain and the strength of these young women and those who held the “white umbrella” of protection and purity over them on the road to restoration. This book offers principles and guidance to anyone with a heart for these hurting young women and a desire to help. It is an ideal resource for individuals or organizations seeking to learn what they can do to assist these victims in becoming whole again.

Its ecological lifespan approach globally traces risk and protective factors associated with this exploitation, laying a roadmap towards its prevention. Diverse experts, including survivors, describe support and care interventions across domains and disciplines, from the law enforcement and judicial sectors to community health systems and NGOs, with a robust model for collaboration. By focusing on the humanity of trafficked persons, a public health paradigm broadens our understanding of and ability to address trafficking while adding critical direction and resources to the criminal justice and human rights structures currently in place. Sex Industry Slavery Robert Christmas, 2020-11-03 Sexual exploitation and human sex trafficking is a multi-billion-dollar international industry that preys on youth. Written by veteran police officer Robert Christmas, Sex Industry Slavery is an impactful read for anyone who wants to know more about this serious Canadian problem. Many young women are coerced into oppressive relationships in the sex industry, often starting in childhood. There are numerous barriers and challenges for children who are vulnerable to exploitation as well as for survivors striving to leave the sex industry; however, there are also many opportunities to help them. Based on Christmas’s award-winning research in Manitoba, this book includes gut-wrenching stories from survivors, social workers, police officers, lawmakers, and activists. Representing decades of collective knowledge, Sex Industry Slavery presents first-hand perspectives on the problem and proposes practical solutions.

Data and Research on Human Trafficking Elzbieta M. Gozdiak, 2011 This is a print on demand edition of a hard to find publication. The subject of human trafficking, or the use of force, fraud or coercion to transport persons across international borders or within countries to exploit them for labor or sex, has received renewed attention within the last two decades. This report provides a detailed description of the processes involved in a project to identify English language research-based literature on human trafficking; the databases searched and the keywords used to identify pertinent references; discussion of the development of the taxonomy used to categorize identified research-based journal articles, reports, and books; and the results of the categorization of the research according to the taxonomy.

*Ethical Concerns in Research on Human Trafficking* Dina Siegel, Roos de Wildt, 2015-12-08 This book presents a vivid description of the solutions that researchers have discovered for ethical dilemmas that pose themselves at studying disadvantaged, vulnerable and victimized populations. Ethical codes prescribe that the scholar should in all circumstances avoid potential harm, that informed consent is necessary and that the limits of confidentiality should always be respected. However, in the practice of research among women involved in prostitution, illegal immigrant workers, enslaved children, people who sell their organs and all the traffickers thereof, the ethical rules cannot always be followed. This book shows that there is a surprising variety of arguable possibilities in dealing with ethical dilemmas in the field. Authors reflect on concrete experiences from their own fieldwork in a wide variety of settings such as the USA, Singapore, Kosovo and The Netherlands. Some choose to work on the basis of conscientious partiality, others negotiate the rules with their informants and still others purposely break the rules in order to disclose and damage the exploiters. Researchers may find themselves in a vulnerable

position. Their experiences, as presented in this volume, will help field workers, university administrators, representatives of vulnerable groups, philosophers of ethics and most of all students to go into the field well-prepared. This is a book that every researcher planning to do fieldwork in the difficult field of hidden, illicit and victimized people should read in advance. Dr. Frank Bovenkerk, Professor (Emeritus), Willem Pompe Institute for Criminal Law and Criminology, Universiteit Utrecht, The Netherlands This book allows a peek in the kitchen of empirical fieldwork, going into not only “best practices,” but mistakes made, in a frank, courageous and honest way. Dr. Brenda C. Oude Breuil, Willem Pompe Institute for Criminal Law and Criminology, Universiteit Utrecht, The Netherlands

Control and Protect Jennifer Musto,2016-07-05 Control and Protect explores the meaning and significance of efforts designed to combat sex trafficking in the United States. A striking case study of the new ways in which law enforcement agents, social service providers, and nongovernmental advocates have joined forces in this campaign, this book reveals how these collaborations consolidate state power and carceral control. This book examines how partnerships forged in the name of fighting domestic sex trafficking have blurred the boundaries between punishment and protection, victim and offender, and state and nonstate authority.

*Human Trafficking* Mary C. Burke,2022-02-27 In Human Trafficking: Interdisciplinary Perspectives experts from a wide range of disciplinary and professional backgrounds provide a uniquely comprehensive understanding of human trafficking in the twenty-first century. Chapter authors consider historical, sociocultural, legal, public health, human rights, and psychological aspects of this issue. New chapters address important topics such as racism, child soldiers, organ trafficking, and the role of technology and the banking industry in trafficking. The third edition also explores the ways in which institutionalized oppression of people of color, Native Americans, and those in the LGBTQ+ community can underlie vulnerability of these populations to being trafficked. Human Trafficking is essential reading for professionals in law enforcement, human services, and health care, and for concerned citizens interested in human rights and making a difference in their communities. This book is also intended for use in undergraduate and graduate interdisciplinary courses in human trafficking.

The Power Of Positive Deviance Richard Pascale, Sternin Jerry Sternin Monique,2010-06 Think of the toughest problems in your organization or community. What if they'd already been solved and you didn't even know it? In The Power of Positive Deviance, the authors present a counterintuitive new approach to problem-solving. Their advice? Leverage positive deviants--the few individuals in a group who find unique ways to look at, and overcome, seemingly insoluble difficulties. By seeing solutions where others don't, positive deviants spread and sustain needed change. With vivid, firsthand stories of how positive deviance has alleviated some of the world's toughest problems (malnutrition in Vietnam, staph infections in hospitals), the authors illuminate its core practices, including: · Mobilizing communities to discover invisible solutions in their

midst · Using innovative designs to act your way into a new way of thinking instead of thinking your way into a new way of acting · Confounding the organizational immune response seeking to sustain the status quo Inspiring and insightful, The Power of Positive Deviance unveils a potent new way to tackle the thorniest challenges in your own company and community. Richard Pascale is an associate fellow of Templeton College, Oxford University, and author or coauthor of numerous books, including Managing on the Edge, Surfing the Edge of Chaos, and The Art of Japanese Management. Jerry Sternin was the world's leading expert in the application of positive deviance as a tool for addressing social and behavioral change. Monique Sternin has been an equal partner in these efforts and now heads the Positive Deviance Institute at Tufts University

Human Trafficking Marie Segrave, 2016-12-05 Human trafficking captured the attention of the global community well over a decade ago, inspiring multifarious international, national, regional and local responses. While formally recognized as one of the major threats associated with transnational organized crime, human trafficking remains an issue about which much has been written and yet little is known or supported by empirical evidence. The essays selected for this volume reflect four key areas of debate: the transnational organized crime framework; the data and research landscape; the implementation of anti-trafficking responses; and the articulation of alternative responses to human trafficking. These essays are written by well-known and more recent contributors to this field of research. The collection draws attention to contemporary arguments as well as recent empirical research, and points to the importance of contextualizing human trafficking within both the global and local setting. This volume reflects where human trafficking data, research and debate is currently located and where it is heading, and as such is of interest to academics, students, policymakers and practitioners.

Criminology Explains Human Trafficking Sarah Hupp Williamson, 2024-08-06 Criminology Explains Human Trafficking provides a comprehensive and accessible overview of criminological theory as it applies to the topic of human trafficking. and policy. She applies a diverse range of criminological theory to cover different forms of trafficking, victims versus offenders, the role of migration and globalization, domestic and international law, anti-trafficking efforts, and more.
